

Lauren Lieberman, Ph.D., is a professor of adapted physical education at the College at Brockport in the state of New York. She taught at the Perkins School for the Blind and received her doctorate from Oregon State University. She also founded and currently directs Camp Abilities, a developmental

sports camp for children who are visually impaired, blind, or deafblind. In addition to conducting research, she has written five books in this area.

This two-day conference will be hosted by AERO

The Ohio Chapter

of the Association for Education and Rehabilitation of the Blind and Visually Impaired. Additional financial support was provided by the American Printing House for the Blind

Adapted Movement Activities for School Age Students and Young Adults who are Visually Impaired and have Additional Disabilities

Dr. Lauren Lieberman

March 30, 2012
9:30 a.m. – 4:00 p.m.

Dr. Lauren Lieberman will present this practical “hands-on” workshop on facilitating adapted movement activities for students and young adults who are blind or visually impaired and have additional disabilities. Professionals from various disciplines will gather a wealth of resources and learn practical strategies for adapting, assessing and incorporating functional movement activities into their students’/clients’ daily lives at home, at school and in the community.

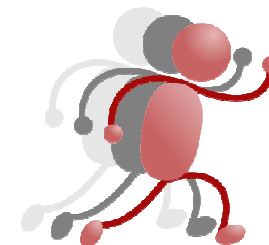

This workshop is intended for
Orientation & Mobility Specialists
Teachers of Students with a Visual Impairment
Teachers of Students with Multiple Disabilities
Adapted PE Instructors
DD Adult Service Providers
Deafblind Specialists
Blind Rehabilitation Professionals
Occupational and Physical Therapists
